

NEWTON N

DevOps / Site Reliability Engineer

+91-9885782060 | newton.9979@gmail.com | Hyderabad, Andhra Pradesh, India

Professional Summary

DevOps / SRE professional with 8+ years of overall IT experience, including 3+ years in DevOps/SRE roles and 5+ years in production and application support. Skilled in AWS Cloud, CI/CD automation (Jenkins), containerization (Docker, Kubernetes), Infrastructure as Code (Terraform, Ansible), Linux/RHEL administration, shell scripting, and monitoring (Prometheus, Grafana, CloudWatch). Proven track record supporting mission-critical banking, finance, risk, and UPI transaction platforms, including CI/CD pipeline management, cloud infrastructure automation, incident management, root cause analysis, and production reliability improvements.

Core Skills

Operating Systems: Linux (RHEL 7.7/7.8/8), UNIX, Windows Server

Version Control: Git, GitHub (branching, merging, pull requests, repository management)

CI/CD & Build Tools: Jenkins, Maven

DevOps & Automation: Ansible, Terraform, Shell/Bash Scripting

Containers & Orchestration: Docker, Kubernetes (Deployments, Services, ConfigMaps, Secrets, Ingress, HPA)

Cloud (AWS): EC2, S3, VPC, RDS, Lambda, IAM, CloudWatch

Databases: MySQL, Oracle 11g, MS SQL Server, MariaDB, Hive, Beeline

Big Data: Hadoop HDFS

Web & Application Servers: Apache Tomcat, Nginx, IIS, Apache HTTP Server

Code Quality & Security: SonarQube, Snyk, Trivy

Repository Management: Nexus, Artifactory

Monitoring & Troubleshooting: Prometheus, Grafana, k9s, AWS CloudWatch

Scheduling & Workflow: IBM Tivoli Workload Scheduler (TWS), Apache Airflow, Apache NiFi, DL Scheduler

Banking & Production Support: Finacle, Financial Inclusion (FI), POS/Micro-ATM, UAT, Incident & Change Management

Infrastructure Operations: DR Drills, Backup & Restore, Patch Deployment, OS Upgrades, Production Deployments

Professional Experience

DevOps / SRE Engineer — Production & Application Support (FRDV & OFP)

Capgemini Technology Services India Ltd | Client: Development Bank of Singapore (DBS) | Jun 2023 – Apr 2026

Supported Finance Risk Data Validation (FRDV) and One Finance Platform (OFP), mission-critical financial platforms for finance, risk data processing, and regulatory reporting, as a DevOps/SRE Engineer responsible for CI/CD automation, cloud infrastructure, containerization, deployment automation, production reliability, monitoring, and incident management.

- Managed CI/CD pipelines using Jenkins for automated build, deployment, release, and rollback across Dev, QA, Staging, and Production environments.
- Used Git/GitHub for source-code management, branching, merging, tagging, pull requests, and release management.
- Automated application builds using Maven and managed build artifacts using Nexus Repository.
- Built, managed, and troubleshooted Docker containers and images; deployed and managed containerized applications on Kubernetes (Deployments, Services, ConfigMaps, Secrets, Namespaces, Ingress, ReplicaSets, HPA).
- Resolved Kubernetes issues including pod failures, CrashLoopBackOff, image-pull errors, scheduling issues, service connectivity, and deployment/rollout failures.
- Provisioned and managed AWS infrastructure using Terraform (Infrastructure as Code) and Ansible for configuration and deployment automation.
- Managed AWS EC2, VPC, S3, IAM, and CloudWatch for infrastructure operations, access control, monitoring, and application support.

- Developed Shell/Bash scripts to automate health checks, log analysis, file validation, batch monitoring, cleanup, and alerting.
- Monitored IBM Tivoli Workload Scheduler (TWS) jobs, Apache Airflow DAGs, and Apache NiFi pipelines, including dependency tracking, failure resolution, and BOD/EOD and month-end batch processing across HDFS and AWS S3.
- Administered Linux/RHEL servers including patching, service management, log analysis, filesystem management, and disk-space troubleshooting.
- Implemented monitoring using AWS CloudWatch, Prometheus, and Grafana to improve application and infrastructure visibility.
- Investigated and resolved P1/P2 production incidents, performed Root Cause Analysis (RCA), and implemented permanent fixes to prevent recurrence.
- Supported production deployments, Change Requests, patching, rollback activities, and post-deployment validation with minimal downtime.
- Created and maintained SOPs, runbooks, RCA documents, and deployment procedures; participated in Incident, Problem, Change, and Release Management following ITIL practices.

Production / Cloud Support Engineer — UPI Transaction Support (AWS Cloud)

Olive Crypto Systems Pvt Ltd | Client: Axis Bank | Aug 2021 – Mar 2022

Supported a UPI transaction processing and payment application hosted on AWS, covering transaction monitoring, application availability, production troubleshooting, deployments, and automation.

- Provided L2 production support for UPI transactions and banking applications on AWS.
- Monitored UPI transactions, EC2, CloudWatch, application health, CPU, memory, disk, and alerts.
- Managed Apache Tomcat deployments, Catalina startup/shutdown, service monitoring, and log troubleshooting.
- Troubleshot application, API, connectivity, and transaction issues using Linux, logs, and SQL/MySQL.
- Developed Shell scripts to automate health checks, Tomcat monitoring/restart, log analysis, and disk checks.
- Supported Jenkins Freestyle Jobs, Maven builds, Nexus artifacts, and deployments across environments.
- Participated in incident management, RCA, production deployments, and SLA support, coordinating with Development, Database, Network, and Infrastructure teams.

Software Engineer / Production Support Engineer — Financial Inclusion (FI)

Integra Micro Systems (Sep 2019 – Aug 2021) • Bartronics India Ltd (Oct 2016 – Sep 2019) | Client: Andhra Bank

Supported Financial Inclusion (FI), a banking solution providing services to rural customers via Customer Service Points and POS/Micro-ATM devices, including cash deposit, withdrawal, balance enquiry, and mini-statement transactions integrated with the Core Banking System (CBS).

- Provided L2/L3 production and application support for Financial Inclusion, Payment Gateway, Web Kiosk, Micro-ATM/POS, eKYC, and banking applications across Linux, Windows, and Android platforms.
- Supported end-to-end banking transactions including deposit, withdrawal, balance enquiry, and mini statements, including online/offline synchronization between FI and CBS.
- Performed functional, integration, UAT, API, and performance testing; designed test cases and validated transactions using Postman and SQL.
- Analyzed requirements, prepared test scenarios, executed UAT, and coordinated with bank clients, NPCI, CBS, development, and infrastructure teams.
- Performed database validation and troubleshooting using MySQL and MS SQL Server; developed SQL queries using DDL/DML, joins, and transaction-level validations.
- Supported MySQL DC-DR replication, MS SQL DC-DR log shipping, database backup/restore, and production-to-UAT database restoration.
- Administered RHEL and Windows servers, including OS patching, RPM/YUM updates, filesystem management, and RHEL 7.7/7.8 to RHEL 8 upgrades.
- Supported IIS and Nginx environments, including application deployments, web.config changes, application pools, and SSL certificate installation/binding.
- Executed production application patches through approved Change Request (CR) processes and performed post-deployment validation.
- Participated in DR drills, DC-to-DR switchovers, and DR-to-DC switchbacks, validating application, database, and transaction availability.

- Monitored and resolved production incidents, coordinated client calls, maintained SLA compliance, and prepared daily operational reports.
- Provided functional/production support for Finacle modules including Customer Accounts, Account Opening/Closure, Cheque Book, Stop Payment, Loans, Term Deposits, Clearing, ECS, TDS, RTGS, ATM, Remittance, and NPA.

Education

Bachelor of Technology (B.Tech) in Information Technology — JNTU University, Hyderabad, Andhra Pradesh, India (2008 – 2012)

Personal Details

- Date of Birth: 10 June 1990
- Gender: Male
- Marital Status: Married
- Languages: English, Hindi, Telugu
- Hobbies & Interests: Listening to music, Table Tennis
- Address: 12-63/2, Kanchikacharla, NTR District, Andhra Pradesh – 521180
